

Validation Solutions - Discount your Ticket...

— **Inexpensive solution** Low-cost option to provide discounted parking.

— **Very convenient** Handheld and compact device.

— **Stand-alone** Operates fully autonomously without any need for online network or electrical power.

— **Multiple application** A single ticket can be encoded several times to accumulate multiple discounts.

— **Discount types** Validations for percentage, time, money value or other tariff.

— **Statistics** Produce a detailed validation report from the Zeag Management System.

The **ValiMark** provides a discount by inserting the ticket into the device and then manually closing the clam. The parking ticket is re-coded with a different fee rate and marked to show that it has been discounted. Payment or

exit stations will then calculate a pre-determined discount when the ticket is inserted.

The **ValiMate** is a motorized device to encode Magnetic stripe tickets with a discounted parking fee. The discount applied is printed on the ticket and can be repeated up to a maximum of 10 times per ticket. Payment or exit

stations will then calculate a pre-determined discount when the ticket is inserted.

Product description

- Stainless steel housing uncoloured
- Discount set with permanent magnets
- Small physical and optical indication of discount granted
- Weight: approx. 0.3 kg
- Width 60 mm, Height 52 mm, Depth 120 mm

Product features

- Magnetic stripe parking ticket is updated with discount
- Fully autonomous offline operation
- No electrical power required
- Single validation per ticket

Options

- Mechanical 6-digit counter

Product description

- Stainless steel housing in RAL 9006 white aluminum
- Label information on paper with transparent plastic window
- Read/Write ticket unit for Magnetic stripe tickets
- Encoding status indicated by LED (red/yellow/green)
- Security Lock
- Ambient temperature: 0° to 40° C
- Power supply: 100 to 240 VAC, 47 to 63 Hz
- Secondary supply voltage: 24DC, 2.5A
- Weight: approx. 5 kg
- Width 160 mm, Height 140 mm, Depth 275 mm

Product features

- Magnetic stripe parking ticket is updated with discount
- Fully autonomous offline operation
- Multiple validation up to max. 10 times

Options

- 4 discounts from one ValiMate – equipped with illuminated buttons, applicable to different types of discount such as percentage, money value, time or special tariff structure
